CREATE A CLOUD OBJECT STORAGE SERVICE

The screenshot shows the IBM Cloud console interface for creating a new Cloud Object Storage service. The browser address bar indicates the URL is `cloud.ibm.com/objectstorage/create`. The page header includes the IBM Cloud logo, a search bar, and navigation links for Catalog, Manage, and the user account (Aiswarya maki G's Acc...). The main content area is titled "Cloud Object Storage" and includes tabs for "Create" and "About". Below the tabs, there is a section "Choose an Infrastructure" with two options: "IBM Cloud" (selected) and "Satellite". The "IBM Cloud" option describes creating, managing, and accessing storage in globally available data center locations. The "Satellite" option describes utilizing infrastructure from on-premise data centers. Below this, there is a section "Select a pricing plan" with a note that displayed prices do not include tax and are for the country or region of India. On the right side, a "Summary" panel shows the service name as "Cloud Object Storage", the region as "Global", the plan as "Lite", and the resource group as "Default". It also includes a "Create" button and an "Add to estimate" button. The bottom of the screen shows a Windows taskbar with the date and time as 08:22 on 17-11-2022.

Create About

Choose an Infrastructure

IBM Cloud

Create, manage, and access your storage in globally available data center locations. Public cloud environments are designed for high durability, resiliency and security. IBM-managed infrastructure automatically scales to businesses needs.

Satellite

Utilize infrastructure from on-premise data centers, at other cloud providers, or in edge networks as a Satellite location to IBM Cloud. Deploy, manage and control app workloads with IBM Cloud Object Storage on client-managed infrastructure.

Select a pricing plan

Displayed prices do not include tax. Monthly prices shown are for country or region:India

Activate Windows

View terms to Settings to activate Windows.

The screenshot displays the IBM Cloud Object Storage 'Buckets' management interface. The left-hand navigation pane includes links for Cloud Object Storage, Storage instances, Buckets (which is the active section), Integrations, Endpoints, Usage details, Service credentials, Connections, and Plan. The main content area is titled 'Buckets' and includes a descriptive paragraph: 'Buckets serve as containers for objects, and can be individually configured in terms of their location, resiliency, billing rates, security, and object lifecycle rules.' Below this, there is a search bar and a 'Create bucket' button. A table lists the existing buckets with the following data:

Name	Public access ⓘ	Location ⓘ	Storage class	Created
picture001	Yes	jp-tok	Standard	2022-11-16 4:15 AM

At the bottom right of the interface, there is a 'Activate Windows' watermark and a taskbar showing the system clock at 09:09 on 17-11-2022.
